

# 2022 District Report Card

Families and communities are critical partners to a district's success. Just as a student's report card shows how they are performing, the district report card shows how a district is performing in multiple areas. It shows the district's strengths and the challenges that need to be addressed to ensure the district is meeting the needs of all students.

## Student Progress

Student growth measures the amount of academic progress a student made over the year, based on MCAS. It compares a student’s MCAS performance to other students with similar past MCAS scores. Growth is reported on a scale from 1 to 99, with lower numbers representing lower progress and higher numbers representing higher progress. An average growth score between 40 and 60 means that the district or school is making typical progress.

► How much does our district spend per student?

## Finance

### Dollars Spent per Student

The total dollars spent per student, broken down by the source of funds. Funding comes from federal, state, and local sources. The amount of money spent per student depends on many factors, including student enrollment, staffing, special programs, and whether the school receives state or federal grant funds.

► How is our district doing in the state's accountability system?

## Accountability

An accountability system brings together a set of measures in order to provide clear, actionable information about district and school performance. In Massachusetts, accountability results are calculated using information related to student performance on state tests, chronic absenteeism, high school completion, and advanced coursework completion.

### Accountability Information

Due to the COVID-19 pandemic, most districts and schools did not receive an accountability determination in 2022. However, report cards may contain additional information if the district or school had low MCAS participation, a low graduation rate, or low performance. Districts and schools that are new or very small are reported as having "insufficient data."
